

NESTLÉ NIGERIA TECHNICAL TRAINING PROGRAMME – AGBARA FACTORY

Nestlé is the largest Nutrition, Health and Wellness Company worldwide.

As part of our commitment to develop talents in Africa, Nestlé Nigeria is seeking self-driven, motivated and qualified young individuals to equip with technical skills at our Technical Training Center in Agbara, Ogun state. As part of our commitment to Gender Balance, **we highly encourage Female applicants to take advantage of this programme.**

THE PROGRAMME

- The programme will last for 18 months.
- Students will be engaged in rigorous theoretical and practical training.
- Exposure to industrial work experience in the various plants within our factory location.
- They will participate in continuous assessment processes and appraisals.

The programme will focus on three (3) core disciplines:

- Mechanical Operations,
- Electrical and Instrumentation operations
- Automation and Control Systems activities.

The training program will lead to the award of a Nestlé Certificate of Participation. **In addition, we will prepare trainees for City and Guilds of London Technician Awards in Engineering.**
